Re: Conditions of Play – State President’s Reserve Singles & Pairs 2018

The State Match Committee has received feedback concerning the Conditions of Play and the 2018 State President’s Reserve Championships.

The current COP (in question) reads:

Note: A player who becomes graded higher than Grade 5 in the Current Season shall become ineligible to continue in the event (ie the player / team shall be disqualified)

The suggestion made to the State Match Committee is that, with the compressed 2018 Season Program, the majority of State President’s Reserve Championships will be completed before Pennants is played or completed.

It is likely that a player who is successful in the State President’s Reserve Championships will be elevated above grade 5 as a recognition of that success.

The Board has resolved to approve a recommendation from the State Match Committee resolved to that the COP be amended to provide that a player who wins a State President’s Reserve Championship at Zone level remain eligible to compete in the State Finals series, irrespective of the Grade played subsequent to winning that competition.

The amendment to the COP is

AMEND Section 8 (State President’s Reserve Singles & Pairs, Note after clause 8.3) to read:

Note: A player who becomes graded higher than Grade 5 in the Current Season shall remain eligible to continue in the event.

Greg Helm
Chief Executive Officer
